8. CHOICE BASED CREDIT SYSTEM (CBCS)

Choice based credit system (CBCS) is an internationally acknowledged system. Therefore the entire higher education in India is transforming itself to this uniform grading system. The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. . This will benefit the students to move across institutions within India to begin with and across countries.

The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations, the University Grants Commission has formulated the guidelines to be followed.

The choice based credit system not only offers opportunities and avenues to learn core subjects but also exploring additional avenues of learning beyond the core subjects for holistic

development of an individual. The CBCS will undoubtedly facilitate us benchmark our courses with best international academic practices.

Advantages of the choice based credit system:

- Shift in focus from the teacher-centric to student-centric education.
- Student may undertake as many credits as they can cope with (without repeating all courses in a given semester if they fail in one/more courses).
- CBCS allows students to choose inter-disciplinary, intra-disciplinary courses, skill oriented papers (even from other disciplines according to their learning needs, interests and aptitude) and more flexibility for students).
- CBCS makes education broad-based and at par with global standards. One can take credits by combining unique combinations. For example, Physics with Economics, Microbiology with Chemistry or Environment Science etc. CBCS offers flexibility for students to study at different times and at different institutions to complete one course (ease mobility of students). Credits earned at one institution can be transferred.

Outline of Choice Based Credit System:

1. Core Course: A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.
 2. Elective Course: Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.

15. Digital Initiatives for Higher Education – UGC

National Mission on Education through Information and Communication Technology (NMEICT).

➤ The National Mission on Education through Information and Communication Technology (NMEICT) has been envisaged as a Centrally Sponsored Scheme to leverage the potential of ICT, in teaching and learning process for the benefit of all the learners in Higher Education Institutions in any time anywhere mode. This was expected to be a major intervention in enhancing the Gross Enrolment Ratio (GER) in Higher Education by 5 percentage points during the XI Five Year Plan period.

➤ The three cardinal principles of Education Policy are access, equity and quality which can be realized well by providing connectivity to all colleges and universities, by providing low cost and by affordable access-cum-computing devices to students and teachers and providing high quality e-content free of cost to all learners in the country. NMEICT encompasses all the three elements. The Mission has two major components:

1. Providing connectivity, along with provision for access devices, to institutions and learners;
2. Content generation.

It seeks to bridge the digital divide, i.e. the gap in the skills to use computing devices for the purpose of teaching and learning among urban and rural teachers/learners in Higher Education domain and empower those, who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy. It plans to focus on appropriate pedagogy for e-learning, providing facility of performing experiments through virtual laboratories, on-line testing and certification, on-line availability of teachers to guide and mentor learners, utilization of available Education Satellite (EduSAT) and Direct to Home platforms, training and empowerment of teachers to effectively use the new method of teaching learning etc.

Karnataka State Open University (KSOU) has adopted National Mission on Education through Information and Communication Technology (NMEICT) a flagship initiative of Ministry of Human Resource Development, which aims to leverage the potential of Information and Communication Technology (ICT) in teaching and learning process by high quality , personalized and interactive knowledge modules over the internet for all the learners (EIs) in anytime, anywhere mode. The Karnataka State Open University has created separate cell for the NMEICT and Virtual Labs. Adopted ICT initiatives of are as follows:

- a. SWAYAM: Massive Open Online Courses
- b. SWAYAMPRAKASH: View digital courses on TV
- c. National Digital Library: e-content
- d. e-PG Pathshala: Gateway for e-books upto PG
- e. Shodhganga: A reservoir of Indian Theses
- f. e-ShodhSindhu: e-journals

- g. e-Yantra: Engineering for better tomorrow
- h. FOSSEE: Free/Libre and Open Source Software for Education
- i. Virtual Labs: Web-enabled experiments designed for remote – operation
- j. University Enterprise Resource Planning (SAMARTH)
- k. VIDWAN: Expert Database and National Research Network
- l. IRINS: Indian Research Information Network System
- m. Shodh Shudhhi (PDS): Plagiarism Detection Software

SWAYAMPRAKHA:

SWAYAM Prabha is an initiative of the Ministry of Human Resources Development to provide 32 High Quality Educational Channels through DTH (Direct to Home) across the length and breadth of the country on 24X7 basis. It has curriculum-based course content covering diverse disciplines. This is primarily aimed at making quality learning resources accessible to remote areas where internet availability is still a challenge. The DTH channels are using the GSAT-15 satellite for programme telecasts. Karnataka State Open University has provided Opportunity to access relevant channels in the Cauvery Auditorium for the benefits of learners during their stay in the personal Contact Programme.

VIRTUAL LABS:

Virtual Labs will provide the students the result of an experiment by one of the following methods (or possibly a combination). Modelling the physical phenomenon by a set of equations and carrying out simulations to yield the result of the particular experiment. This can, at-the-best, provide an approximate version of the ‘real-world’ experiment. Providing measured data for virtual lab experiments corresponding to the data previously obtained by measurements on an actual system. Remotely triggering an experiment in an actual lab and providing the student the result of the experiment through the computer interface. This would entail carrying out the actual lab experiment remotely. Virtual Labs will be made more effective and realistic by providing additional inputs to the students like accompanying audio and video streaming of an actual lab experiment and equipment. For the ‘touch and feel’ part, students can possibly visit an actual laboratory for a short duration.

Karnataka State Open University has been recognised as Nodal Centre for Virtual Labs under the leadership of National Institute of Technology, Surathkal. The University has established well equipped Virtual Labs at Science Bhavan which can cater to the needs of KSOU learners in accessing the experiments developed by NITK.

CONTENT DEVELOPMENT:

The UGC e-Content scheme aims at developing high quality e-Content, as well as expertise for generating such content over the long term. The scheme provides financial assistance and technical support to teachers and other experts based in colleges and universities for the development of e-Content. The e-Content development and the associated web based learning described here do not seek to replace traditional teaching and learning, but are expected to supplement them. The inclusion of e-Content in learning is now inevitable, and the UGC initiative is, hence, designed to meet the new challenges, and to help India take the lead in this newly emerging field. The **Karnataka State Open University** has initiated development of e content proposal under the NMEICT

SWAYAM
